JOSIAH TURNER, Jr., EDITOR.

THE COURT SHALL ANSWER THE COURT.

The letter of Judge Reade to John D. Hyman, written before the Bench of North Carolina was contaminated by participation in politics, will be read as much to the satisfaction of the people as to the condemnation of all the Judges. It the Bar had answered, denying there was any contempt in fact or in law, and that the Court had no jurisdiction, and put in Judge Reade's letter, as a part of their answer, they would have been fully vindicated and heartily sustained by the people of the State. The disgrace and dishonor brought upon the Judiciary of North Carolina, by the personal and political conduct of certain Judges, has been keenly felt by the people of the State. The humblest of our people feel that for the preservation of order and the execution of law, the highest reverence and respect should be shown to the Judiciary. This letter of Judge Reade's will tend to cultivate that feeling. It will be for the people to say whether they endorse Judge Reade in 1864, or Judge Reade in 1869. Judge Reade will find that the noble sentiments, so well expressed in his Hyman letter, have not become odious to any but himself, Holden, the party and the Court.

Judge Read's letter was written when he was in open rebellion to his government. Reconstruction seems to have made him a worse man, instead of a better one. The people will remember with lively gratitude the wisdom, temper and moderation of this reconstructed rebel.

The man must be far gone in partizan and political madness, who could write the Hyman letter, and then write the Legislative Address, and follow it up with a political speech to five thousand negroes, in the Capitol Square, and then attempt to punish the Bar, because, in the spirit of his own letter to Hyman, they remonstrate and protest against Judicial interference in political matters.

Roxboro, July 1, 1864.

My Dear Sir:—I received yours of the 23rd ult., enclosing an editorial of the *Progress* of that date, in which it is said, that Governor Graham, myself and others, have not declared for Gov. Vance, and that we cannot vote for him without stultifying ourselves, and you ask whether my position is correctly given, and if not, that I will give it, and allow you to publish it. I received a letter some time ago from Col. Little, to the same end, and, after consulting my friends, I declined his request, mainly because I thought that my position in the Judiciary made it improper that I should do so. Since receiving your letter, I have reconsidered the matter. Respect for your opinion, and a disposition to be obliging, inclined me to accede to your request, but the strongest conviction of my judgment is, that it would be a breach of propriety, for which I know no precedent in North Carolina, and for which I would be severely censured. By universal consent, if not by the imperative demand of the public sentiment, the Judges have stood aloof from active participation in party contests. Of course they think and vote with the same independence which others use, but the Press and the Rostrum have not been common to them. I am the youngest Judge upon the bench, and I am sure I ought not to violate a custom which has been so well approved. I think it would be best if it could be forgotten that a Judge ever belonged to either, or to any party, but if that cannot be, then the next best thing is that he should be claimed by all. If there ever was a time when the Judiciary should be free from party prejudices, that time is the present. In war the laws lose much of their strength and influence. The passions run wild. And Judges, to be influential and useful, must be more than ordinarily prudent, in order to avoid the prejudices of any man, or of any party. And, besides, I think you will agree with me, that there never was a time when the Press used so much freedom, not to say licentiousness, in denouncing any and everybody who appears before the public; "Fool," "knave," "abolitionist," "scoundrel," "coward," "liar," "traitor," are the *delicacies* of its language, until the State, if respected abroad at all, must be so in spite of its press. In the article which you send me from the *Progress*, it is said that I cannot declare for Gov. Vance without "stultifying" myself. If I were to declare for Mr. Holden I am sure you would have no kinder word than that. So that, whether I declare for one or the other, I could be nothing better than a *fool* at the least. In February last, your neighbor, the *Confederate*, placed me side by side with Mr. Holden—indeed, put me at the very head of the list of "agitators;" so that, in whatever Mr. Holden was bad, I was worse. But in its issue of yesterday it says, it is "morally impossible that I can support him." And yet I have said not a word, and am neither better nor worse than I was in February.

So that, declare as I might, if I were to declare at all, I could not hope to escape denunciation, and the consequent prejudices of a large portion of the public, by treason of which my influence on the bench, where I really desire to be useful, would be impaired.

I consider that if a Judge's position in politics were misrepresented, professedly by authority, and injury to himself or to others were likely to ensue, there would be no impropriety in his making correction—But the article in the *Progress* is only speculation upon my antecedents, and your paper has freely indulged in the same. My antecedents are before the public. The public are not easily deceived, and upon their good sense I must rely, and shall be happy if I can possess their good opinion in my new position and serve them with profit.

With an earnest desire to oblige you, and any portion of my friends, I have to regret that I cannot, consistently with my sense of propriety, comply with your request.

With considerations of distinguished regard, I am very truly yours,

E. G. READE.

J. D. Hyman, Esq.

N. B.—You can make any use of this you think proper—omitting Col. Little's name. E. G. R.

A DESPERATE WOMAN THROWS HERSELF IN THE WAY OF THREE RAILROAD TRAINS.

The latest most persistent attempt at self-destruction was made on Saturday night last by an unfortunate woman at Memphis Junction, on the Louisville and Nashville railroad. Ill-clad and wretched in appearance, she was observed wandering about in the vicinity of the depot, and appeared to be waiting the arrival of a train. When the bell and whistle announced the approach of the first train, she was seen walking down the track, and then to throw herself across the rails, directly in the path of the locomotive. Mr. Irving Sheldon, a telegraph operator, who had noticed her strange movements, ran to her and jerked her off the track before the train came up. She had, however, fully made up her mind to die, and watching for the next train, she repeated her frightful adventure, and was again dragged from the track by the operator. It was thought this second frustration of her purpose would discourage her, but it seemed to have the opposite effect. She yet lingered, and when warning bell and whistle again sounded, she was again ready for the sacrifice, and prostrated herself a short distance in advance of a third train. Mr. Sheldon, who had kept watch over her, again ran to the track and drew her away from it, and the train passed on without having harmed her.

The earnestness of her terrible purpose being now so apparent, she was taken from the Depot. Her husband had been a brakeman on some railroad, which she did not name, and had been killed. Her infant child, she said, had been taken from her mother, and she had no desire to live any longer.—*Louisville Chronicle*, 15*th*.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.
—Largest amount of Losses to Widows and Orphans!
The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

SPARKLING CATAWBA SPRINGS,
CATAWBA COUNTY, N. C.
THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.
Being situated in the northwestern part of the State, a country remarkable for the beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.
The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c.
The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.
Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.
FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.
A GOOD BAND OF MUSIC
Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.
Having secured the services of Mr. J. N. Cantrell, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.
The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.
As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

For one single month, $50 00
For two or more months, $40 per month, or at that rate.

ROBERT SOUTTER,
OF GRANVILLE COUNTY,
realizing the importance of spreading the growth of Wheat in this County; and the farmers, knowing so well the absolute necessity of supplying themselves at an early period with "Seed Wheat" of the finest quality, ready to plant in the Fall, the undersigned takes this early method of inviting applications from farmers, for what they may require to plant next Fall, of the very "Select Seed Wheat" which he expects to deliver at moderate prices, from the crop growing now at his "Oakland Farm" near Townesville, in this County.
This Wheat was planted last Fall, with Guano, of seed selected in Baltimore with great care by my predecessor, Mr. Chas. R. K. Taylor, who paid $3,25 for it there. It has had the advantage of a heavy top-dressing in Spring of Chicago bone Fertiliser, and is now very promising.
Like the good Sorghum Seed which I have offered to the farmers of Granville, I hope the orders for my "Seed Wheat" may be equally attractive, to absorb all that I can expect to spare of it.
Address me at Kittrell's Springs, or Mr. Thos. W. Taylor, at Oakland Farm.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, JUNE 23, 1869.

JUDGE READE.

This gentleman, until very recently, occupied a low position in the estimation of Gov. Holden. He was a rebel Judge in 1864, also a rebel Senator in the Richmond Congress. "Our beloved Governor" often denounced him and held him up to the public gaze as "a trickster, demagogue and coward." Of course Holden's character was so despicable that no one believed what he said of Judge Reade any more than what he said of Judge Badger or Governor Graham. For ourself, we did not believe him then nor do we believe him now.—When he would make Judge Reade a devil incarnate, we did not believe him, now that he would canonize him as a saint, we will not believe him. All we can believe of the Judge, and that is founded on his past public career, is, that, as a politician, he is unscrupulous; as a lawyer; unsound; as a Judge, partial in his judgments, and in his deportment, uncourteous. As evidence of the first proposition, we cite his political history; to prove the second we cite the "turret and foundation stone," to be found in his opinion declaring the homestead valid. To prove the third, we cite his conduct when swearing in the members of the General Assembly; and, as sustaining the fourth, we would cite his effort to arrest the late Judge Dick, his castigation of the late Judge Saunders in the Bushrod Harris case, before the Supreme Court, and his recent deportment toward Mr. Johnston on his first appearance before the Supreme Cou t.

The Judge seems to be perpetually exercised by the effort to sustain, not only his own dignity, but the dignity, consequence and importance of the entire body of the Judiciary. He tolerates no invasion of the Judicial claim to respect, as his proceedings against the Bar, in the recent "contempt" case, clearly demonstrates. He seems to sit as guardian to keep watch over the Judicial dignity and consequence of Jaybird Jones. We would respectfully intimate to the Judge, our firm conviction, that the claim of Jaybird, Tourgee, Cloud and Company to respect, is illegitimate; their *assumption* of Judicial dignity cannot give them a *title* to it. In fact, men are said to make themselves more ridiculous by their assumption of qualities which they do *not possess*, than by the exhibition of qualities which they do. The earnest and unremitting diligence with which Judge Reade guards the Judicial dignity of Jaybird Jones is calculated to excite the risibles of any one who knows Jaybird and the justice of his claims to Judicial respectability, and is only equaled by the zeal of Judge Cloud in defending his Brother Tourgee, when presented by the Grand Jury of Orange. Cloud is said to have "cussed" like the Governor, when he heard of the presentment, and sent Tourgee word to "put every d—d rascal of the Grand Jury in jail."

If Judge Reade would abate somewhat his zeal in defending Judicial dignity where none exists, and repeat some of his old Temperance lectures to the Governor, the Court and "the bands," his time would be better and more profitably employed, and more good accomplished.

IMPORTANT QUESTION.—The case of the University Railroad Company *vs.* the Governor and State Treasurer, will come up before the Supreme Court, on Saturday next, Attorney General Olds for the Governor and Treasury, and Messrs. Fowle and Haywood for the Railroad Company. This is a suit to compel the Governor and Treasurer to issue bonds to the amount of $300,000, for the purpose of building a road to the University, and we presume the case will settle some important constitutional questions.

Considerable curiosity has been excited in Germany by a pamphlet entitled "The Earth to Receive a Second Moon, at a less distance from it than the present one." As the pamphlet has reached a second edition, we may give a short extract from it. Chapter VI is headed:—"Newest assertion. The Zodiacal light is a ring of gas surrounding the earth, and but a few thousand miles distant from it," while the previous chapters treat of generalities only. The author asserts that the said gaseous ring is no longer burning, but slowly cooling off, invisible while the sun is below the horizon of different deity, interrupted by the shadow of the earth, and depending in height and duration upon the sun's distance from it. Just as the rings of Saturn, as admitted by all astronomers, having become cold, are the precursors of moons, he claims the same result for the so-called Zodiac.—The new moon being comparatively close to the earth will cause many partial and total eclipses. The author thinks that the catastrophe of the bursting of the ring may consummated in our time or that of our children. He winds up with the assertion that no doubt many thousands of years have elapsed to bring about this approximation; but, says he, experience teaching us that the duration of pregnacy is a thousand times longer than the act of parturition, and this fact he applies to the forthcoming of the new moon.

CONSOLIDATION—NORTH CAROLINA vs VIRGINIA!

I have seen and conversed with a number of Stockholders, who returned some days since from a delightful excursion to our magnificent harbor at Beaufort, which they visited despite the trouble and annoyance of applying to President Smith for a pass over his Road. All came back delighted and surprised to see that we had such a harbor on our own coast; and nearly all expressed themselves strongly for consolidation.

Last week there was an excursion to Norfolk; and President Smith issued *through tickets*, and sent them to a large number, if not all, of the N. C. R. R. Stockholders to visit this Virginia port. Now, why this distinction between Virginia and North Carolina? Beaufort harbor is a better port than any in Virginia. It is only 30 minutes sail from the Railroad wharf to the ocean, while Norfork is 30 miles from the sea. Our Railroads are capable of carrying all our freight as cheaply, as quickly, and as safely as by any other route. This was proven and fully tested in 1866, when there was a regular line of steamers between New York and Morehead City. I know of one shipment of 800 bales of cotton *via* Morehead City in preference to Norfolk, or Charleston, or Wilmington, which cities were bidding for it. It was sent through to New York with the same dispatch, and cheaper, than by either of the other routes. I have heard of Mr. Allen, a large merchant of Newbern, saying that he shipped $100,000 worth of goods yearly by the Newbern steamers. He feels so safe that he never insures, and has never lost one cent. Does that look like there was such danger on our coast, as some pretend? The Insurance Companies at New York, offer to insure goods in first class steamers to Morehead City, at the same rate they do to Norfolk.

As North Carolinians we should protest against building up other States in preference to our own. Can any true North Carolinian prefer another State to his own?—Then, is not this the *effect* of our present Railroad management? At one depot of the N. C. R. R. I am informed that the freights received and sent off amount to about $350,000 a year; and I suppose the amount to be as large at many others.—Under the present system, about one-fourth of this $350,000 goes into Virginia pockets. Now, why not pay this to North Carolina, and to the Railroads in which she is interested? About $88,000 of this $350,000 could be saved, and ought to be kept within the State, and would, if these freights were sent over our own Roads. Of this $88,000 the State would receive, according to her proportion of stock, about $52,000, which would be paid into the State Treasury to lighten our taxes, and the balance be paid to the Stockholders. Now, if this can be done from the freights of one depot, what would go into the State Treasury from the whole Road? I verily believe that in two years the amount received by the State from this great work, when consolidated, would pay the whole expense of the State government; and the Stockholders, of course, would be benefitted in proportion. This is no fancy sketch—this very thing is now done in Georgia.

Were there enormous taxes—amounting to $28,000,000, at the last session of the Legislature, and many millions before—imposed upon the people of our State to build roads for, and enrich other States?—If so, we had better let railroad building alone, where we receive nothing in return but sneers! It is time North Carolinians were awake to their interest. We cannot afford to build up other States, and thereby impoverish ourselves. How long can and will North Carolina stand this system? It has been carried on too long already; and I hope the State Stockholders will look to their interests and consolidate the two roads in which the State is most deeply interested. If an individual stood in the position of the State, he would consolidate immediately—would have done so long ago. Then let our State, and not Virginia alone, have the benefit of her public works. There are hundreds of steamers at the wharfs, in New York, ready and anxious to come to our ports for our freights, if we will only send it there. The road will be at no expense for steamers—they will come at any moment, and in any number required, to carry off all our freights, if we will only give them an opportunity. Freights are now brought by way of Wilmington, over the N. C. R. R. cheaper than any other route, though communication with New York is not so frequent. They can be brought by Morehead City cheaper than by Wilmington, if the roads are consolidated, and North Carolina will get three-fifths of all the profits of such freights. Those fine steamers which ply to Norfolk can be turned to our waters if the Stockholders say so; they live on our commerce; our waters are as fine as any in the world; our harbors are safe; then let us have these steamers in our own ports, and we can compete with the world, and trade with the world.

Why is it, every Road leading to South Carolina and Virginia is opposed to Consolidation? Why is it that every Road, which touches the North Carolina Railroad, is opposed to it? Well may they be opposed to it, for they know they cannot compete with it. Well may the Raleigh and Gaston, and the Seaboard and Roanoke, Roads give free passes to the Stockholders of the North Carolina Railroad; well may the Board of Trade of Norfolk feast them and flatter them; for they know full well the value of our freights, and cannot afford to lose them, and will make any sacrifice to retain them. Now if they can afford to give so much to keep them, then we certainly can save what they give, and make their profit ourselves! It is absurd and ridiculous to say, that one Road cannot carry freight cheaper than three or four different lines under different managers, and subserving different interests. Why is it that every paper we pick up tells of Roads consolidating, sometimes three or four into one, and in every instance the stock of the consolidated Road advances largely beyond the price of either of the Roads before consolidation. Within the last month the Pennsylvania Central Road has been consolidated to Chicago. Only a few days since the Legislature of New York consolidated the Hudson River, and New York Central, Roads. They know the value of a long line under one management!

Consolidation is the order of the day.—Can it be possible that what is right the world over, is wrong in North Carolina?—If successful elsewhere, it will be here also.

The carrying of freight to New York *via* Morehead City was successfully tried in 1866; and would have been continued to this day, but for the continual change of officers, which has taken place yearly in both Roads. The North Carolina Railroad has had four Presidents, and the Atlantic & North Carolina Railroad three, in the last four years; and in this annual confusion and change North Carolina *suffers*, while other States are benefitted! There is a partial remedy for this—consolidation! and let there be but one set of officers to change annually, instead of two sets.

The opponents of consolidation speak of the Atlantic & North Carolina as being a dead weight to the North Carolina Railroad. This is all absurd! Why is it the Atlantic & North Carolina Railroad is not paying dividends to its Stockholders? It is because all the other Roads in the State are striving to carry freight to Norfolk instead of sending over the Atlantic & North Carolina Railroad, where it ought to go. Give it the freight it ought to have, and which now goes from the North Carolina Railroad to the R. & G. R. R. and it will pay vastly better than the North Carolina Railroad; for it is a great deal cheaper Road to keep up and run. A locomotive, which will pull only ten loaded cars over the heavy grades of the North Carolina Railroad, will pull *twenty* over the Atlantic & North Carolina Railroad, owing to the grades being so light and the track so straight.

Some objection has been made to the debt of the A. & N. C. R. R. The debt is not more than half what the debt of the N. C. R. R. is, in proportion. The A. & N. C. R. R. has a capital of $2,000,000 and only owes about $230,000, while the N. C. R. R. has a capital of $4,000,000 and owes $800,000. The A. & N. C. R. R. owes only 10 per cent. of its capital stock, while the N. C. R. R. owes 20 per cent of its capital stock. The objection on the score of the debts of the two companies ought to come from the A. & N. C. R. R., for it will be a hardship upon it to assume part of the N. C. R. R debt. But the debts of the two companies can be easily arranged by the terms of consolidation, just as any other trade is made.

Another objection urged by some to consolidation, is that the act authorizing it, forbids discrimination against shippers of freight from one point to another. This is intended expressly to prevent discrimination against our own citizens, so as to allow them the benefit of the lowest freights, and to encourage our own citizens, as through freights now go at a very low rate, and local freights at local rates, it amounts to a discrimination in favor of strangers, and against our own citizens. We should not discriminate against our own people. If we desire to discriminate against through freights it can be done; for the act says expressly: "Provided that the rates shall apply to the line of the said (consolidated) road only, and not to through rates in connection with other lines of transportation." Now this is one of the best features in the bill. It does not necessarily restrict the road to low rates; but says, if the rates are low, our own citizens are to have the benefit of them.

Another objection urged by the opponents of consolidation is that the stock of the N. C. R. R. is worth more than that of the A. & N. C. R. R. The act of consolidation expressly provides that committees shall be appointed to arrange the differences. No two roads ever were consolidated but the stock of one was selling higher than that of the other. The A. & N. C. R. R. Stockholders are perfectly willing, "I understand, to sacrifice part of their stock in order to get part of the business of the State, which they think they have a right to; but which, owing to the various combinations of the other roads against them, they don't get. The capital of the N. C. R. R. is $4,000 000; that of the A. & N. C. R. R. is $2,000,000,—making $6,000,000.—Now if the Atlantic & North Carolina Railroad Stockholders are willing, and I understand many of them are, to put their road into the consolidated road, provided the N. C. R. R. will give them $1,000,000 of stock, making the consolidated capital $5,000,000; ought not the N. C. R. R. to be willing to give $1,000,000 of stock, worth only $20 a share, making only $200,000 for a road 96 miles long, and which cost $2,200,000, and could not be built now for $3,000,000?

Why, there are any number of individuals in the State, who would gladly take the off r, if made to them. The iron alone will sell for twice the amount. Then why should not the N. C. R. R. take this great bargain, and pay for it in stock worth only $20 per share—worth 20 cents in the dollar? The A. & N. C. R. R. would not think of making such an offer to any other party or corporation.

They say, by consolidation the business will be so largely increased, that both companies will make more money than now, in their separate organizations, and in a year or so the stock they have left will be worth more than the whole is now.

Then let us consolidate and advance the interests of our own roads, and our own State. Do we see people of other States advocating other ports in preference to their own? No. North Carolina alone witnesses so sad a sight. It is time for us to have some State pride. These roads were chartered and built to encourage State pride in her citizens, and we must not allow them to be diverted from the purpose for which they were intended. Every citizen of North Carolina should be interested in her prosperity, for we will get no help from other States. I have no interest of any kind to advance in Eastern North Carolina. I have not, and never had, a share of stock in the A. & N. C. R. R. I have a few in the N. C. R. R. I have considered this subject, weighed well the arguments on both sides, and am thoroughly satisfied that consolidation is the best thing that can happen for the N. C. R. R. and the State of North Carolina. I have no prejudice against Virginia; but I have a prejudice in favor of North Carolina, and when the issue is made, as it seems now to be made, you will always find me on the side of my native State. Let our motto ever be "North Carolina against the world."

IOTA.

A BURNING SEA OF NAPTHA.—The Pall Mall *Gazette* mentions the recurrence of an extraordinary phenomenon recorded by Herodotus as having been observed in remote times by the tribes inhabiting the shores of the Caspian Sea. That huge salt lake is dotted with islands from which enormous quantities of naptha are yearly taken. Early last month, owing to subterranean disturbances, the naptha wells on these islands overflowed, and the inflammable substance spread over the entire surface of the lake. It accidentally took fire, and for forty-eight hours burned furiously over a surface of many thousands of square miles, presenting a magnificent and terrifying spectacle to the inhabitants of the surrounding country, who imagined the end of the world was at hand. The fish in the lake were entirely destroyed, and for miles around vegetation was parched and the country made like a desert.

In order to amuse the children on a Sabbath, a lady was engaged in reading from the Bible the story of David and Goliath, and coming to the passage in which Goliath so boastingly and defiantly dared the young stripling, a little chap, almost in his first trowsers, said: "Sister, skip that, he's blowing! I want to know who licked."

A clergyman and one of the elderly parishoners were walking home from meeting one frosty day, when the old gentleman slipped and fell on his back. The minister on being assured that he was not hurt, said to him, "My friend, sinners stand on slippery places." The old gentleman looked up, as if to assure himself of the fact, and replied: "Yes, I see they do; but I can't."

The Duchess de Riario-Sforza, having made a deposit of $12,000 in excess of the sum for which the late M. Berryer's estate at Augerville, France, was sold, will probably become the definite purchaser. The total price will then be $76,000.

UNITED STATES COURT.

Opinion delivered by Chief Justice Chase in the case of U. S. vs. John T. Deweese—Indictment, use of Franking privilege contrary to law—Defendant convicted—Motion in arrest of judgment.

An indictment was found against the defendant, charging that he, a member of Congress, franked letters, not written by himself, namely envelopes, which he consented should be used, by one Cunninggim, for the purpose of transmitting through the mail, free of postage, certain mailable matter, properly chargeable with postage; which franked envelopes were used by Cunninggim. Upon the indictment the jury found the defendant guilty.

The ground of the motion is that the act described in the indictment did not constitute the offence of franking letters in violation of law, within the meaning of the 28th section of the act of 3rd of March, 1825. It is insisted that, first, the indictment does not allege that Deweese franked any letter as a member of Congress; second, that it does not negative the conclusion, that the letters were written by others under his direction and on the business of his office; and that a printed circular letter, contained in a sealed envelope, is not a letter within the meaning of the act of 1825.

That act provides that, "if any person shall frank any letter or letters, other than those written by himself, or by his order on the business of his office, he shall, on conviction thereof, pay a fine of $10."

The first of these objections may be easily disposed of. The penalty is pronounced against any person who commits the offence of unlawful franking. It was sufficient, therefore, to allege that Deweese committed the offence without alleging that he was a member of Congress. If this were otherwise, we think that the indictment which charges that John T. Deweese, member of Congress, committed the offence, is a sufficient allegation that he was a member of Congress when the offence was committed. Nor do we think that more weight should be given to the second objection. In an indictment for a Statutory offence, it is sufficient that it is substantially set forth, though not in the precise words of the act, (U. S. vs. Batcheor 2 Gall. 15, U. S. vs. Pond, 2 Cur. 265.)

In the present case, the fact that the letters were not written by order of the Defendant, on the business of his office, is sufficiently negatived by the affirmative that the envelopes which he franked were used with his consent, by Cunninggim for the purpose of transmitting free through the mail matter chargeable with postage.

The only serious question is that presented by the third objection, that the franking of envelopes for the transmission of printed Circulars through the mail; is not the franking of letters within the meaning of the act.

It is not denied that the franking of these envelopes, for the purpose intended, was a violation of law. The franking privileges of members of Congress cover only correspondence to, and from them; printed matter issued by authority of Congress; all speeches, proceedings, and debates in Congress; and all printed matter sent to them. It is very clear that the Circulars franked by the Defendant did not come within either of these descriptions. The franking, therefore, was unlawful.

But is it made a penal offence by the act of Congress? The answer to this question depends on the meaning of the word "letter" as used in the act.

It is strenuously insisted, on behalf of the defendant, that the word meant only a manuscript letter. In support of this view, it is urged that the act itself in assigning a penalty for franking letters other than those *written* by the frankor, implies that the letters, of which the franking is made an offence, must be written letters; and this view seems not unreasonable.

It is further insisted that this construction is supported by the provisions of the act of 1863, describing mailable matter, as consisting, first, of letters; second, of regular printed matter; and third, of miscellaneous matter. In these classes of mailable matter, the first alone embraces correspondence, wholly or partly in writing. The other classes embrace printed matter, with an addition in the third class, of book manuscript, and proof sheets, corrected or uncorrected.

This definition of letters as correspondence, wholly or partly in writing, necessarily excludes from the definition printed circulars, whether in the form of letters or otherwise. It does not leave us at liberty to say that the word letter or letters, other than those written by himself or by his order, in the above section of the act of 1825, includes any letters not partly, at least in writing. The indictment in this case does not charge that the letters described in it were written, either wholly or in part; and the proof before the jury was that the circulars alleged to have been franked, were printed.

It follows that the indictment does not describe an offence within the meaning of the penal provision of the act of 1825. It describes an unlawful act to which Congress has not seen fit to annex a penalty. No judgment, therefore, can be entered upon the verdict.

The motion in arrest of judgment must be granted.

LARGE GRANT OF LANDS TO AMERICANS IN GUATEMALA.—The English Blue Book states that a grant of land in British Honduras, known as the Icacos grant, was made in 1867 to Mr. Putnam and four other Americans, who had been naturalized there. It includes a tract of land from the seacoast on the east to the frontiers of Guatemala on the west, between the Monkey river and the Deep river, the area of which is about 300,000 acres. The purchase money is £20,000, payable in ten equal annual installments, beginning in 1873. The grantees are bound to locate and settle on the granted land fifty families within two years, and two hundred families within five years. The government undertakes to expend three fourths of the purchase money in making public improvements within the district.—*Boston Herald.*

A SENSATION IN HORSEHEADS, N. Y.—Horseheads, Chemung county, has a lively sensation. Livery stable keeper wrote to a respectable married lady desiring an interview. Was told to call at ten o'clock in the evening. Did so, and invited lady out to ride. Invitation declined, and, turning upon him, lady delivered severe punishment with a strap which had a buckle on it.—Then a door was opened and husband of lady entered with several male friends, all of whom fell upon livery stable keeper and beat him mercilessly. During the melee a son of the lady fell down, and, a pistol in his pocket going off he was severely wounded in the leg. Perhaps lady and husband, son and male friends are almost as much to be condemned as livery stable man.

An unusual flow of emigration from Norway and Sweden has passed through various British ports during this year, mostly *en route* for the United States. The number that has passed via Leith and Glasgow since the middle of March averages 850 per week. The cause is a partial failure of the crops in those two countries during the last two seasons.

Mr. Beecher confesses to having read the account of the McCool-Allen prize fight, and to thinking that Mr. Allen was shamefully abused.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate in any mode or form they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for two dollars comes in possession of a homestead which under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.

MISS MARY PESCUD, a bright and interesting little girl of some eight or ten years of age, niece of our fellow-townsman P. F. Pescud, Esq., while crossing Fayetteville Street, yesterday afternoon, during a tremendous gust of wind which had blown up dense clouds of dust, was knocked down and run over by a carriage which happened to be passing. Fortunately the young lady escaped without any injury, save that one of her arms received some slight bruises, although the carriage and horses passed completely over her. No blame can be attached to the driver, as the dust was so thick as to render it impossible for him to see any distance ahead.

RAN AWAY.—A horse attached to the dray of Mr. Douglas Bell, Grocer, ran off late yesterday afternoon, while left standing in the street near Mr. Bell's residence, breaking the shafts and singletree of the dray, by striking it against a lamp post. The horse was slightly hurt in one of his legs.

COOLER.—An angry looking cloud accompanied with wind and lightning, passed over the city yesterday afternoon, by which the atmosphere was cooled, and to-day the weather is more pleasant.

COMING DOWN.—Yesterday the work of tearing down the old Guard-house and Mayor's office on Market Square was commenced, the materials of which are to be used, as far as practicable, in the erection of the new Market House.

In this connection we would mention that the excavation for the cellar of the new Market House, is rather a dangerous trap, so close to the street. Such places ought always to be fenced to avoid accidents.

FESTIVAL.—Yesterday afternoon the children connected with the Presbyterian Sabbath School, of this city, enjoyed a feast, prepared for them at the old Boylan place, at present the residence of Prof. W. C. Kerr, State Geologist, in the Southwestern part of the city.

We understand that the young people and every body else present had a very pleasant time.

WE call special attention to the advertisement of Mr. A. Myers, of Norfolk, in this issue. Mr. Myers is too well known to the people of North Carolina, to require a *puff* at our hands.

WORK COMMENCED.—It will be gratifying to all who are looking forward to spending a pleasant time in visiting the State Fair this Fall, to learn that work on the Fair Grounds has been commenced, and, as a go-ahead contractor has undertaken it, and Mr. Jacob Allen, a go-ahead carpenter, is at work on it, there is no doubt it will be done in good time, and well done.

THE Penitentiary Committee has been in session yesterday and to-day. A survey of the stockade line has been made, and other preliminary matters considered. Bids will be compared and contracts awarded at once.

IMPROVEMENTS.—In addition to many improvements going on in our city, heretofore alluded to, may be mentioned the removal of the Hay scales, which are being taken up from the market square to be put down near the corner of the square and Wilmington street.

Messrs. Upchurch and Dodd are excavating, preparatory to laying the foundation of their new store on the site of the old Planters' Hotel. This new building will front 30 feet on Wilmington street, running back along Martin street 125 feet. They have 120 000 brick lying ready to begin with, and will soon have 200,000 more.

N. C. REAL AND PERSONAL ESTATE AGENCY.—We learn that this Company has, now, several ladies in its employment, together with a couple of Clerks, who are kept busy answering letters. We are told that a large number of tickets are being daily sold for the grand drawing, which, it is confidently expected, will take place about the middle or latter part of August next.—Another explanatory drawing will come off on the 10 h of next month.

SOMETHING NEW at Pentress' corner, may be seen and tasted, and helps to a continuance in a moderate temperature, obtained, at all seasonable hours. Further particulars will doubtless be made known at an early day, through our advertising columns.

MORE TROUBLE IN JONES.—We received informa ion from Jones County, last night, to the effect that a day or two ago, a discharged negro militiaman, attempted to arrest Mr. J. R. Smith, Sr., without any warrant or authority. Mr. Smith called some gentlemen to his assistance, and the negro was secured and properly committed to jail. He managed to escape, when Bozier getting wind of it promptly re-arrested him and again committed him to jail. This action has infuriated the negroes, who, when our informant left, were flocking to Trenton with the avowed intention of liberating the negro. A conflict with the Raleigh militia was imminent.—*Journal of Commerce.*

We thought there was danger brewing down there when we saw Bozier strutting about Raleigh in his fine uniform.

SUPREME COURT.—Court met at 9 A. M., all the Justices present.

Sloan *vs.* Mendenhall, Guilford county.—Put off.

Walt *vs.* Harrison, Caswell county. Compromised.

State *vs.* Barnett, Orange county. Put off.

Mitchell *vs.* Henderson and Baylor, Caswell county. Argued, Baily for Plaintiff. No counsel for Defendant.

Answers under Rule of Court, for contempt, by Wm. A. Jenkins, Geo. V. Strong, Wm. T. Dortch, Rich'd. W. York, J. B. Batchelor and C. M. Busbee. Rule discharged as to Respondents.

Lee *vs.* Street, Craven county. *Per curiam;* appeal dismissed—no appeal bond filed. Judgment *pro forma* is no judgment.

U. S. CIRCUIT COURT.—Court met pursuant to adjournment. Hon. G. W. Brooks, presiding.

The morning was consumed in call of Civil Docket.

Gen. Robt. Johnston, upon motion, was admitted to practice in this Court.

STATE NEWS.

TO REMOVE FOR FEAR OF BEING MURDERED.—Mr. Henry M. Haswell, who was released on bail, on Saturday last, and of whose innocence of the murder of Colgrove no sane man who reads the evidence will entertain a doubt, intends to remove to Granville county, his old home, immediately. Mr. Haswell has been induced to take this step by the entreaties of his friends, who fear that he will be murdered by the wretches that burned his house over his helpless wife and children, while he was in custody, threats to that effect having been made.

From this it would appear that Jones County is not such a paradise for Democrats as the radicals would make us believe.—*Journal of Commerce.*

A QUESTION JUDGE THOMAS DID NOT ASK.—Judge Thomas, on the Haswell investigation, took especial care to ask every white witness for the defence, whether he did not belong to some secret, oath bound organization. S range to say, His Honor did not ask the same question of the negro witnesses for the prosecution. Why was this thus? Did the Honorable gentleman *know* that they belonged to an organization, or was he so firmly convinced of the contrary, that he considered such a question superfluous?

We presume the negro witnesses were members of the Union League—a secret, oath bound organization.—*Journal of Commerce.*

BADLY BURNED.—Saturday evening last quite a painful accident befell little Rachel Ward, a young girl about seven years of age, and daughter of Mr. Edward Ward of this city. Her mother was pouring Kerosene oil in a lamp, while she held the wick, which at the time was ignited. A portion of the oil was accidentally spilled on the table and the burning wick came in contact with it, causing at once a terrible conflagration. The little girl's hand was painfully though not seriously burned.—*Wil. Star.*

CANCELLING STAMPS.—It seems that the old law requiring dealers in liquors to cancel the stamps or government brands upon their barrels after exhausting their contents is by no means generally observed. The Collector of Internal Revenue for this district speaks of prosecuting such as shall hereafter fail to comply with the requirements of the law. The penalty is rather heavy, being $300 for each barrel so neglected, one half of which goes to the Collector.—*Wil. Jour.*

A SKILLFUL OPERATION.—Dr. Strudwick of this town cut a tumor from off the upper lip of a lady in this county a few days since. The tumor hung like an egg and rested on her chin. In drinking or eating she had to hold it to one side. The doctor removed it taking a piece from the upper lip in the shape of a V, and then sewing it together. The lady is now doing well.—*Hillsboro Recorder.*

GENERAL BUTLER AS A LAWYER—AN ILLUSTRATION OF HIS PRACTICE.

The Washington correspondent of the Rochester *Chronicle* closes a recent letter with the following story:

"The intricacies of law are freshly illustrated by a new story of General Butler, which I have just heard. The directors of a Boston bank, having their suspicions aroused, notified their cashier that an examination of the books and cash in his possession must be had. The cashier went to Butler, and stated his case. He had misappropriated funds of the bank to the amount of $50,000. Part of this had been lost in stock speculations, and part was still invested in various speculative securities. He asked whether he had not better own up, restore what he could, and let his bondsmen make up the deficit. Butler, after some consideration, directed him to attend the meeting of directors, deny that there was anything wrong, and if they desired, to surrender the keys and go home, leaving them in possession. He did as directed, gave up the keys, and the directors, upon examining the books and cash in the vaults, found a deficit, as they anticipated, of $50 000—They notified the cashier and his bondsmen, who, in due time, appeared, accompanied by Butler, who, acting as spokesman, enquired what the matter was. The Directors informed him of the facts, and added that they did not wish to make scandal, and if the cashier's bondsmen would make good the missing cash, no further proceedings would be had. General Butler coolly replied that there must some mistake.—His client had surrendered the bank and funds, as required by his bond. If there was any d ficit it must have occurred after the directors took possession. He would assure them that they could not take possession of the ba k and its contents and come upon the bondsmen also. If they would accept the cashier's resignation and give him the usual certificate of good character, they would call it square and let the matter drop. The directors now began to see the dilemma in which they were placed and sent for a lawyer, only to find that they had made a false step; that they had no proper evidence of the amount of cash in the bank when surrendered by the cashier, and that in taking possession they had lost their only remedy. As it would not do to let the stockholders know how they had been overreached, the directors had to go to work and make up the loss out of their own pockets. They gave their defaulting cashier the certificate of character which he demanded, and he went to work in another bank, in the same city, a few weeks afterward. What part of the stolen $50,000 Butler got for his fee I did not hear.—The truth of this anecdote I can vouch for; but I will not tell how it came to first crop out in Washington.

Dennis N. Cooley wants to be Senator from Iowa in place of James W. Grimes.—He is supported by a large Radical faction in opposition to Chief Justice Wilson and Congressman Allison.

GEORGIA

ATLANTA, June 22.—The Supreme Court of Georgia to-day decided that the Code of Georgia adopted by the new Constitution, forever prohibits the marriage relation between white persons and persons of African descent, and declares such marriages null and void. Second, that this section of the Code is not repealed by, nor is it inconsistent with, that part of the Constitution which declares that the social status of the citizens shall never be the subject of legislation. That clause of the Constitution absolutely denies to the Legislature the power to pass laws in the future regulating the social status or compelling the two races to unite in social intercourse.—as the laws then in existence allowed churches for instance, to determine for themselves who should occupy their seats and where they should sit, and permitted Railroads and steamboat companies and hotel keepers to classify and assign places to those using their accommodations according to special status and grade, as they might think proper, the Constitution puts it beyond the power of the Legislature ever to enact any law compelling them to make difficult classifications, or to group together in social intercourse those who do not recognize each other as social equals as the social relations of citizens are not the proper subjects of legislation, the Constitution has wisely put this matter at rest by denying to the Legislature the power to repeal or enact laws on that subject.

FLOWERS.

O the flowers, the beautiful flowers!
Filling with cheer earth's dreariest bowers,
Freighting with sweetness the common air,
Smiling alike on pleasure and care;
Angel-eyed messengers sent to impart
Joy to the eye, and balm to the heart.

O the flowers, the eloquent flowers!
Speaking so softly to hearts of ours
Lessons of purity faith and love,
Lifting our thoughts to the Father above
Like them, may our lives in symmetry grow,
Till the [illegible] shall extinguish the glow.

O the flowers, the sweet home flowers!
Filling with joy, as many home bowers;
May the thorns of vice, nor the rank weeds of woe,
Thine blossoms of innocence never o'ergrow.
May their hearts like tendrils lovingly twine
Around the pillar of Love Divine.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,592 policies.

Amount insured,	$10,005,550.00
Total Premiums,	350,117.08

The whole number issued by the Connecticut Mutual in the first year of its existence was 802
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phoenix Mutual, 335
" Massachusetts Mutual, 312
" Equitable of New York, 277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, 1,360 "
And in its 20th year, 2,842 "
this latter being 690 less than was issued by the NATIONAL in its first seven months.

CAPITAL OF THE STATE.
Daily, Semi-Weekly and Weekly.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.

The Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.
